

OVERVIEW

Dymax Tree Saws rip through hardwoods and softwoods leaving nothing behind. Clear trees fast whether it's cedar, hedge, mesquite, locust or other vegetation. Dymax Tree Saws are built to tackle extreme applications and feature forty percent more cutting power and speed helping to reduce overheating issues commonly found with competing products.

Like all Dymax products the **Dymax Tree Saw** is known for its durability and performance. Each model features replaceable carbide cutting teeth and a $\frac{3}{4}$ inch thick cutting disk. Available with fixed boom or swinging boom design. Swinging boom models help to minimize ground disturbance and are provided with a priority flow control valve.

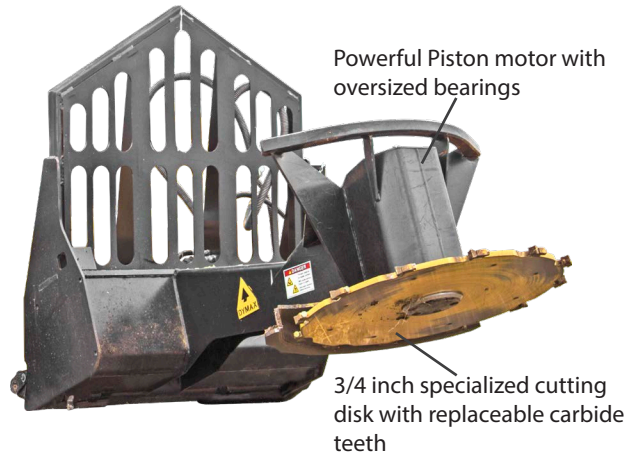

Equip your Tree Saw attachment with a 5 gallon sprayer system to keep the toughest vegetation down for the count.

FEATURES

Dymax Tree Saws are not standard duty. They are built to outlast and guaranteed to outperform.

- 14" diameter cutting capacity with 38" diameter cutting disk that is 3/4" thick.
- Replaceable carbide cutting teeth with locknuts
- Available with fixed boom or optional swing boom.
- XD motor system delivers 40% more torque than competing products and reduces skid steer loader overheating issues.
- Optional chemical sprayer with spray nozzle approximately 5 gallons total capacity.

Model No.	Part No.	Flow Range	Description	Weight lbs
XD Tree Saws feature 40% more torque				
DX-SW-FXB-38XD-SS-MFSS	6700D	26-33 GPM	Tree Saw – Fixed Boom – 38 inch cutting disk – Extreme Duty – Skid Steer – Med. Flow Skid Steer Standard Features:• 14 inch max diameter cut capacity, • 38 inch diameter 3/4 inch cutting disk, • Hi Performance PISTON Motor • replaceable carbide teeth • 26-33 gpm flow rate • with hoses (no disconnects)	1350
DX-SW-FXB-38XD-SS-HFSS	7443D	34-41 GPM	Tree Saw – Fixed Boom – 38 inch cutting disk – Extreme Duty – Skid Steer – High Flow Skid Steer Standard Features:• 14 inch max diameter cut capacity, • 38 inch diameter 3/4 inch cutting disk, • Hi Performance PISTON motor • replaceable carbide teeth • 33-41 gpm flow rate • with hoses (no disconnects)	1370
